ART UNIT

PAPER NUMBER

2161

DATE MAILED: 01/04/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

**Office Action Summary**

Application No.

10/071,415

Applicant(s)

DIRISALA ET AL.

Examiner

CamLinh Nguyen

Art Unit

2161

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 12 December 2005.  
2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.  
3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 1-11 and 13-25 is/are pending in the application.  
4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.  
5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.  
6) ☒ Claim(s) 1-11 and 13-25 is/are rejected.  
7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.  
8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

**Application Papers**

- 9) ☐ The specification is objected to by the Examiner.  
10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).  
11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

**Priority under 35 U.S.C. § 119**

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).  
a) ☐ All b) ☐ Some \* c) ☐ None of:  
1. ☐ Certified copies of the priority documents have been received.  
2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.  
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

**Attachment(s)**

- 1) ☐ Notice of References Cited (PTO-892)  
2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)  
3) ☐ Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)  
Paper No(s)/Mail Date \_\_\_\_\_.  
4) ☐ Interview Summary (PTO-413)  
Paper No(s)/Mail Date. \_\_\_\_\_.  
5) ☐ Notice of Informal Patent Application (PTO-152)  
6) ☐ Other: \_\_\_\_\_.

**DETAILED ACTION**

***Response to Amendment***

1. This Office Action is responded to amendment filed on 12/12/05. Applicant's amendments to claims 1 – 25 are acknowledged. Consequently, claim 12 has been cancelled. Claims 1 – 11, 13 - 25 are currently pending.

***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1 – 5, 13 - 14, 23, 25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bly et al (U.S. 2002/0077944 A1) in view of Guerindon et al (U.S. 5,193,065).

♦ As per claims 1, 14,

Bly discloses a method of facilitating a distributed search for a procurement request comprising:

- “Receiving the procurement request from a user, wherein the procurement request is subject to organizational procurement controls, and wherein the procurement request involves requesting goods and/or services” See Fig. 3 and 10, paragraph 0063 and 0109. The Examiner notes that “procurement controls” specifies controls on price, “quantity”, brand, and source for an item to be purchased (as specified in the remark on page 9, last paragraph). Therefore, the “procurement request” corresponds to a request in the Bly reference (Fig. 10) that comprising price, band (make/model) (corresponds to good), or service (Lease , buy, rent or all).

- “ Requesting a remote supplier to conduct a remote search to satisfy the procurement request, wherein the remote supplier is an external supplier and/or vendor who is located outside of the organization to which the user belongs” See paragraph 0045, wherein Bly teaches that multiple data server can be combined. Examiner agrees that Bly is silent on teaching conducting a remote search. However, Bly does teach that multiple server can be combined to provide information to client. Therefore, each additional server corresponds to a remote supplier in this situation.

Guerindon, on the other hand, discloses a method for requisitioning and distributing material in a manufacturing environment comprising the teaching of searching for material in local and remote storage system (See col. 7, lines 33 – 58, col. 8, lines 64 – col. 9, lines 4, col. 9, lines 15 - 22 of Guerindon).

Since both references are in the same field of invention (searching and retrieving, see the abstract of both references), it would have been obvious to one with ordinary skill in the art at the time the invention was made, to apply the teaching of Guerindon into the invention of Bly because the combination would provide the user more accurate results, and reduce the time in searching the databases.

- “ Initiating a local search of a local information source” See Fig. 3 of Bly wherein the local information corresponds to the “market database”.
- “ Receiving results of the remote search” See col. 7, lines 33 – 58, col. 8, lines 64 – col. 9, lines 4, of Guerindon.

“Filtering results of the remote search by applying organizational procurement controls to the results of the remote search, wherein the organizational procurement controls include at least one

Art Unit: 2161

of, an upper limit on a price, an upper limit on a quantity, a prohibition against a given supplier, a limit to a given brand, a limit to a given model, a limit on a delivery option, and a limit on payment terms”, and “wherein the remote information source comprises an electronic marketplace” see page 10, paragraph 0109, and paragraph 0096 of Bly

- “ Merging said remote search results with results of the local search; and presenting said merged search results to the user” See col. 7, lines 33 – 58, col. 8, lines 64 – col. 9, lines 4, of Guerindon.

♦ As per claim 2, Bly and Guerindon disclose:

- “ Filtering said remote search results with a set of local rules” See page 10 paragraph 0108 – 0109 of Bly. The “local rule” corresponds to the “predetermined condition” of the search query.

♦ As per claim 3, Bly and Guerindon disclose:

- “ Filtering comprises editing said remote search results according to a set of rules regarding information ... user” See page 10 paragraph 0108 – 0109 of Bly.

♦ As per claim 4, Bly and Guerindon disclose:

- “ Selecting said remote information source from multiple information sources” See page 6, paragraph 0063 of Bly.

♦ As per claim 5, Bly and Guerindon disclose:

- “ Said remote search is conducted without the user being connected to the remote information source” See col. 7, lines 33 – 58, col. 8, lines 64 – col. 9, lines 4, of Guerindon. The remote database is searched by the system and the results are returned to the user automatically. Therefore, the user is not connected to the remote source.

Art Unit: 2161

◆ As per claims 13, 25, Bly and Guerindon disclose:

- “ Remote search and local search are performed at least partially in parallel” See col. 7, lines 33 – 58, col. 8, lines 64 – col. 9, lines 4, of Guerindon.

◆ As per claim 23, Bly and Guerindon disclose:

Claim 23 is rejected based on the rejection of claims 1 – 2.

4. Claims 6 – 11, 15, 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bly et al (U.S. 2002/0077944 A1) in view of Guerindon et al (U.S. 5,193,065) as applied to claims 1 – 5, 13 - 14, 23, 25 above further in view of Larry Harris (U.S. 2002/0059204).

◆ As per claim 6,

Guerindon /Bly fail to disclose, “ The remote information source employs a user interface different from a user interface employed by the local information source”. According to Fig. 1 of the disclosure, the remote source interface is different with the local interface by its format in the database.

However, Harris, on the other hand, discloses a distributed search system that comprises a plurality of data sources (See Fig. 2, Harris). The data source can be in different formats (page 2, paragraph 0029). Therefore, Harris discloses a remote source that has a different interface with the local interface.

It would have been obvious to one with ordinary skill in the art at the time the invention was made to apply the teaching of Harris into the combination system of Guerindon /Bly because the combination would allow the user obtains more result from different data sources.

◆ As per claim 7, the combination of Guerindon /Bly/Harris disclose:

Art Unit: 2161

- “ Said presenting comprises displaying said merged search results with the user interface employed by the local information source” See page 5, paragraph 0050, Harris.
- ◆ As per claims 8 - 11, 16, 18 – 20, 24, the combination of Guerindon /Bly/Harris disclose:
  - “ Said requesting comprises identifying to the remote information source a context in which to execute the remote search” See page 5, paragraph 0052 – 0053, Harris.
  - “ Said context comprises an identity of the user” and “ comprises an identity of an organization operating the local resource” See paragraph 0052 – 0053, 0062, Harris.
  - “ Said context comprises a language” See paragraph 0047, Harris.
- ◆ As per claims 15, 22, the combination of Guerindon /Bly/Harris disclose:

with all limitation as in claim 1, further including:

  - “ Said requesting comprises identifying to the remote information source a context in which to execute the remote search” See page 5, paragraph 0052 – 0053, Harris.
  - “ Said context comprises an identity of the user” and “ comprises an identity of an organization operating the local resource” See paragraph 0052 – 0053, 0062, Harris.
  - “ Said context comprises a language” See paragraph 0047, Harris.
- ◆ As per claim 17, the combination of Guerindon /Bly/Harris disclose:
  - “ Selecting said remote information source from multiple information sources” See Fig. 3 of Bly.
- ◆ As per claim 21, the combination of Guerindon /Bly/Harris disclose:
  - “ Remote search and local search are performed at least partially in parallel” See col. 7, lines 33 – 58, col. 8, lines 64 – col. 9, lines 4, of Guerindon

***Response to Arguments***

5. Applicant's arguments filed 12/12/2005 have been fully considered but they are not persuasive.

Applicant argues that the present invention allows a customer to obtain goods and/or service within organizational procurement control while the Bly reference is focused on renting equipment. The Examiner respectfully disagrees.

Bly clearly discloses in Fig. 3 and 10, paragraph 0063 and 0109 this limitation. The Examiner notes that "procurement controls" specifies controls on price, "quantity", brand, and source for an item to be purchased (as specified in the remark on page 9, last paragraph). Therefore, the "procurement request" corresponds to a request in the Bly reference (Fig. 10) that comprising price, band (make/model). "The procurement request involves requesting goods and/or services" corresponds to good (make/model), or service (Lease, buy, rent or all) in Fig. 10.

Applicant argues that the term "remote or global" in Guerindon does not mean external to an organization. The Examiner respectfully disagrees.

Referring to col. 9, lines 15 – 22, Guerindon teaches that more than one supplying can be connected to system 300, and external supplying means exist outside the manufacturing environment of the system 300. therefore, Guerindon does teach about the external supplying as claimed in the instant application.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Spear et al (U.S. 6,809,292 B2) discloses a system and method providing automated welding information exchange and replacement part order generation.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CamLinh Nguyen whose telephone number is (571) 272-4024. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Safet Metjahic can be reached on (571) 272-4023. The fax phone number for the organization where this application or proceeding is assigned is 571 – 273 - 8300.
